

Houston Vessel Manufacturing

Houston Vessel Manufacturing is a leading provider of ASME, PED and CRN certified filter housings, filters, pressure vessels, air receivers, pig launchers & receivers, and process skids. HVM provides products and services to the oil and gas, petrochemical, refinery, industrial, construction, marine, and mining industries.

Headquarters and manufacturing facility is located on 22 acres in Houston Texas so as to serve our primary customer base effectively. We offer high quality, low cost, custom engineered products to meet all of our customers' needs.

Line Card

Filtration Systems

Particulate Filters 1/2" - 3" NPT (Composite Material) 100psi to 220psi
1" - 16" Flanged (Carbon or Stainless) 100psi to 650psi
ASME, PED, and CRN

Coalescing Filters 1/2" - 3" NPT (Composite Material) 100psi to 220psi
1" - 16" Flanged (Carbon or Stainless) 100psi to 650psi
ASME, PED, and CRN

Basket Strainers 1" - 16" Flanged (Carbon or Stainless) 100psi to 650psi
ASME, PED, and CRN

Replacement Filters

Cyclone Moisture Separators 2" - 8" Flanged (Carbon or Stainless) 100psi to 650psi
ASME, PED, and CRN

Demister Vessels 6" - 48" Flanged (Carbon or Stainless) 100psi to 650psi
ASME, PED, and CRN
Horizontal or Vertical Vessels Designed to Customer
Specification

Carbon Filter Vessels 6" - 48" Flanged (Carbon or Stainless) 100psi to 650psi
Designed to Customer Specification
ASME, PED, and CRN

Air Receivers 200 Gal. to 20,000 Gal. w/Pressures to Customer Req.
Horizontal or Vertical Vessels (Carbon or Stainless)
ASME, PED, and CRN as well as Third Party Certifications

Pig Launchers & Receivers Size and pressure ratings per Customer Specifications
Designed per ASME B31.4, B31.8, and ASME Section VIII
Div.1

Process Skids & Separators Designed and Fabricated per Customer Applications and
Specifications
