

Houston Vessel Manufacturing, LLC

Contract Awarded

Houston Vessel Manufacturing was awarded the contract from IBA Industrial for the fabrication of a pressure directive equipment certified (PED) air receiver for use with their electron beam and x-ray accelerators. IBA Industrial is a world class producer of high power electron accelerators.

IBA Industrial has recognized Houston Vessel manufacturing as a key strategic partner in their quest to expand their product capability into the European market. IBA recognizes Houston Vessel Manufacturing's leadership quality in engineering services, manufacturing and overall expertise in PED equipment.

Houston Vessel Manufacturing looks forward to a continuing partnership with IBA on their future projects.

Houston Vessel Manufacturing is extremely proud to be a key component supplier to IBA's global endeavors.
